

The right outcome
begins with the right test

Veritor™
RAPID DIGITAL TEST
&Go

Trust the rapid, digitally
displayed results of the
BD Veritor™ Plus System to
guide your patients to the
appropriate path to care

The reliable point-of-care testing of the BD Veritor™ Plus System brings clarity—and confidence

As more patients are seeking answers and treatment in their communities, accessible point-of-care testing is more critical than ever. Testing can help differentiate between and diagnose multiple respiratory tract infections (RTIs), leading to treatment that helps minimize their spread as well as reduce their duration and severity.¹⁻⁴

Rapid diagnostics provide further confidence that your patients are on the appropriate path to care

Trust BD for the digital difference

The BD Veritor™ Plus System offers a point-of-care testing solution to deliver unambiguous, digitally read results for SARS-CoV-2, Flu A+B, Group A Strep, and RSV. It offers:

- An easy-to-use device—the BD Veritor™ Plus Analyzer—that simplifies implementation and presents rapid, reliable results digitally
- A range of assays to identify the relevant path to care for symptomatic patients so they can take their next steps with more confidence

Reliable results in a timely manner
allow you to quickly diagnose and
improve care for your patients^{2,3}

Choose the **digital testing solution** of the BD Veritor™ Plus System for your patients and community

Unambiguous, **easy-to-read results** displayed on a digital screen

Operational flexibility to meet your team's workflow needs

Rapid results for multiple RTIs delivered in 15 minutes or less for increased efficiency

Seamless results management and reporting via optional **connectivity solutions**

A portable instrument, about the size of a smartphone

Single-button functionality to easily switch between operating modes

Maintenance-free and calibration-free instrumentation

A rechargeable battery for **up to 8 hours** of continuous testing

Simplified staff training and ongoing support with comprehensive **training resources**

The BD Veritor™ Plus Analyzer fits easily into your practice's point-of-care testing workflow

Combine **easy sample collection** and testing workflows for reliable answers you can use

The BD Veritor™ Plus System offers operational flexibility, with 2 modes designed to meet your workflow needs.

Analyze Now Mode

Batch multiple tests simultaneously (default mode)

OR

Walk Away Mode

Plug in and the device will time the test (2 clicks away)

The BD Veritor™ Plus System also provides an easy sample-collection process that can be incorporated across a variety of clinical settings.

Step 1

Collect sample*

Step 2

Mix the swab with the reagent vial

Step 3

Prepare assay with the sample

Step 4

Run the test

Step 5

Insert the cartridge and read the results

*For Group A Strep, add 3 drops of Reagent 1 to the Reagent 2 vial and inoculate the sample for 1 to 2 minutes prior to assay preparation.

Test. Connect. Report.

The BD Veritor™ Plus System helps you and your team manage and report test results with multiple connectivity capabilities to fit your practice's needs.

BD Veritor™ Plus Analyzer with compatible printer

Connect the Analyzer to a compatible printer[‡] via the USB port to print patient test results.

BD Veritor™ InfoWiFi Module

A barcode scanner that captures and links additional information with each result.

BD Synapsys™ Informatics

An integrated informatics solution that enables secure, seamless access and real-time connectivity to BD instruments.

Capability	Analyzer	Analyzer + Printer	Analyzer* + Printer + InfoWiFi*	Analyzer* + Printer + InfoWiFi* + BD Synapsys™*
Rapid, reliable digital results	✓	✓	✓	✓
Print results for patient records		✓	✓	✓
Link to a patient/user barcode ID [†]			✓	✓
Export a CSV file			✓	✓
Public health reporting				✓
Wirelessly automate reporting to LIS/EMR				✓
Real-time dashboards				✓
Live instrumentation status monitoring				✓

Together we can customise an effective and connected reporting solution for your practice.

EMR=electronic medical records; LIS=laboratory information systems.

*Requires a barcoded workflow.

†Test result is associated with Patient ID, Operator ID, and Kit Lot information.

‡Ask your BD representative for a full list of compatible printer options.

How to order the BD Veritor™ Plus System

Contact your local BD representative for configuration assistance to suit your current workflow needs.

BD Product No.	Product Description	Quantity
256066	BD Veritor™ Plus Analyzer	1 unit
256122	BD Veritor™ System for Rapid Detection of SARS-CoV-2 & Flu A+B	30 tests
256089	BD Veritor™ System for Rapid Detection of SARS-CoV-2	30 tests
256045	BD Veritor™ System for Rapid Detection of Flu A+B	30 tests
256041	BD Veritor™ System for Rapid Detection of Flu A+B (Laboratory Test Kit)	30 tests
256038	BD Veritor™ System for Rapid Detection of RSV	30 tests
256042	BD Veritor™ System for Rapid Detection of RSV (Laboratory Test Kit)	30 tests
256040	BD Veritor™ System for Rapid Detection of Group A Strep	30 tests
445010	BD Veritor™ InfoWiFi Module	1 unit
443907	USB Printer Cable	1 unit

Test kits are Point of Care CLIA-waived unless stated otherwise.

View individual test kit product sheets for clinical performance results of the BD Veritor™ Plus System.

Together we can help protect the health and wellness of patients and their communities
