

ManuXelect

The space-saving,
budget-friendly couch

PARTNER FOR LIFE

ManuXelect

The examination and treatment couch par excellence for a small treatment room and a limited budget. Because of the scissors mechanism the ManuXelect is raised fully vertically. Consequently the ManuXelect takes up only 1.4 m²! The easily adjustable sections make this couch easy to operate and stable throughout. A cost-effective variant for someone who has little space available. The ManuXelect treatment couch comes in two 2-section models and in a 3-section variant.

ManuXelect | | |

ManuXelect

- Electrical height adjustment from 48 to 105 cm
- Section adjustment with gas springs
- Ergonomic handles for operation with one hand
- Scissors movement saves space. The couch travels up and down linearly
- Padded sections with soft edges
- The nose hole (with optional plug) ensures patient comfort even when lying face down

Foam density:	38 Kg/m ³

This is a medical device

It complies with all applicable medical regulations. For more details please consult the instructions for use (downloadable via www.enraf-nonius.com).

ManuXelect Colours

OPTIONS⁽¹⁾

A matching Enraf-Nonius couch for every interior. As in other practices, a pleasant ambience is important in physiotherapy practices. Clients must feel comfortable in the room where they are being treated. As each practice is furnished differently and has its own colour scheme, we regard it as important for the treatment couches to fit in with your look and feel. That is why we can manufacture our treatment couches in several upholstery colours. Our imitation leather upholstery contains no phthalates and is flame retardant – a unique combination that makes this material suitable for medical use!

(1) = NOTE: Please order options together with the couch because of modification of the couch during production.
